INTEGRITY

INNOVATION

FOUNDED IN 1844, Buckeye International, Inc. has earned its reputation as a leader in the cleaning/maintenance products industry. Because of a continued commitment to developing products that are safer for workers and the environment, Buckeye established itself as “green” long before it became a marketing strategy.

While manufacturing safer products for the worker and environment are important goals, equally important is a commitment to uncompromised product performance. Buckeye's Green Seal® certified products not only outperform other green products, they also outperform non-green, conventional chemistries.

One of Buckeye's biggest breakthroughs was the development of patented Liquescent® technology. This water-based technology strengthens the cleaning power of Buckeye products, and replaces hazardous chemical ingredients including butyl, ammonia, solvents, and alcohol bases. Buckeye's Liquescent-based floor strippers are butyl-free, cold water activated, and effective on even the

most difficult finish. Buckeye's resilient floor care program also includes durable floor finishes that extend strip cycles while reducing product and water usage. Buckeye also recently introduced the Buckeye Reflections® Wood Floor Program offering oil and water-based wood floor coatings with the lowest VOCs (volatile organic compounds) on the market.

Buckeye's commitment to the environment doesn't end with products. The recyclable and biodegradable Action Pac® was the first packaging type in the industry to utilize a “bag-in-a-box”. In 1999, Buckeye introduced the Smart Sac™ (manufactured with 60% less plastic than rigid containers). These packaging types, used in conjunction with Buckeye's patented dilution systems make Buckeye products safer to use, and eliminate product waste while promoting recycling.

The end-result is a comprehensive line of cleaning and maintenance products that are safer for the environment and the worker, without sacrificing outstanding performance. Buckeye invites you to test for yourself.

Buckeye offers a variety of easy-to-store, durable packaging with multi-lingual labeling.

Smart Sac™

A revolutionary concept in package design, the 5-liter Smart Sac is easily transportable and has a 99.9% product evacuation rate. The Smart Sac is waterproof, and contains 60% less plastic than rigid containers.

Action Pac®

Buckeye International was the first in the industry to introduce this 5-gallon bag-in-a-box that reduces frequent change-outs and is shrink-wrapped for water resistance. The Action Pac box is recyclable and biodegradable with 1/12 the plastic of a 5-gallon pail.

Gallon

Manufactured with 25% post consumer resin, the gallon container is heat-sealed to eliminate leaks during shipping.

Quart

Manufactured with 25% post-consumer resin, the quart bottle is recyclable and its shape conforms to the hands for easy use. It is available with an adjustable trigger sprayer or flip top cap.

Aerosol

The recyclable, ready-to-use aerosol can is convenient, contains no CFCs, and is made of 25% recycled steel.

Half Gallon

Manufactured with 25% post consumer resin, the half gallon container is also recyclable.

Pint

Made of recyclable plastic, the pint bottle's convenient size is easy-to-use with a push/pull top.

Wipes Container

Made with recyclable plastic, the wipe container is convenient and easy-to-use with a flip top lid. Simply pull, wipe, and toss.

0.75 Gallon Squeeze/Pour Bottle

Made with recyclable plastic, the 0.75 gallon squeeze/pour bottle is a convenient size for handling and has a built-in measuring chamber for easy product dilution.

Mega Pac™

The 260-gallon "bag-in-a-box" container allows for greater volume and greater economy. Compact and stable, the Mega Pac is designed for easy disposal. Use with Mega Pac valve opening tool.

Drum

Stackable and recyclable, the drum is economical and equipped with a spigot. Available in 30-gallon and 55-gallon sizes.

GREEN PRODUCTS

Buckeye green products are dilutable (where applicable), butyl-free, and contain no APEO's or EDTA while maintaining maximum product performance.^{††}

True 7™

pH Neutral Cleaner * - *UL listed for slip resistance*

True 7 pH neutral cleaner is effective on all hard surfaces for use in mop buckets, automatic scrubbers, spray bottles, and other applications. True 7 contains no perfume.

RAM™

Heavy-Duty Cleaner/Degreaser *

RAM removes animal and petroleum greases, fats and oils from hard surfaces with multiple dilutions and applications. RAM may be used in food processing and service areas. RAM contains no perfume.

Star Spray™ Concentrate

Glass Cleaner *

Star Spray Concentrate's non-streaking formula contains no alcohol, butyl or ammonia, and is safe on all glass including Plexiglas®, computer screens, chrome, and bar code scanners.

Tenacity®

All-Purpose Cleaner * - *UL listed for slip resistance*

Tenacity is a dilutable all-purpose cleaner for use on hard, nonporous surfaces. Tenacity may be used in mop buckets, automatic scrubber, no APEO, and no EDTA.

Verde™

Environmental Floor Finish ** - *UL listed for slip resistance*

Verde is a high gloss floor finish formulated with no ammonia or zinc, meeting the most stringent environmental standards while maintaining maximum product performance.

Penetrate®

Environmental Floor Stripper **

Penetrate floor stripper is non DOT corrosive, contains no butyl, and works in cold water to liquefy floor finish and sealer.

Marauder®

Environmental General Purpose Cleaner * - *UL listed for slip resistance*

Marauder is a powerful cleaner/degreaser boosted with hydrogen peroxide, and is non DOT corrosive. Also available in unscented version.

Buckeye Green Light

Super Concentrated Floor Cleaner * - *UL listed for slip resistance*

Buckeye Green Light is a super concentrated floor cleaner that is chemically neutral when diluted. It is packaged in an easy-to-use squeeze and pour bottle with a built-in measuring chamber designed for use with an automatic scrubber.

Available Packaging

^{††} EDTA is a chelating agent that helps cleaners handle hard water. APEO is a type of surfactant that is not readily biodegradable.

* This product meets the Green Seal™ environmental standard for industrial and institutional cleaners based on its reduced human and environmental toxicity and reduced volatile organic compound content.

** This product meets Green Seal™ standard for industrial and institutional floor care products based on its reduced human and aquatic toxicity and reduced smog production potential.

FLOOR CARE

FLOOR FINISHES, SEALERS AND ENHANCERS

Buckeye floor finishes are easy to apply, and formulated for superior durability and gloss. All Buckeye floor finishes are non-yellowing, non-powdering, U.L. listed for slip resistance, and extend strip cycles.

Castleguard®

High Solids Metal Interlock Floor Finish - *UL listed for slip resistance*

The King of Floor Finishes™, Castleguard, provides a superior “wet look” depth of gloss with unmatched response to burnishing. No sealer required.

Lucent™

Urethane Fortified Floor Finish - *UL listed for slip resistance*

Lucent is a urethane fortified acrylic floor finish that provides excellent gloss, and resists scuffs and stains on resilient and non-resilient floors.

Buckeye LiquiMax®

Maximum Durability Finish - *UL listed for slip resistance*

Buckeye LiquiMax is formulated to extend strip cycles to 18-36 months when following recommended procedures. LiquiMax is microabrasion resistant, and works with buff or no-buff programs.

Citation®

Sealer/Finish - *UL listed for slip resistance*

Citation floor finish/sealer maintains its high gloss with little maintenance required. Citation resists scuffs, holds up under extreme conditions, and responds well to any burnisher. No sealer required.

Cirene™

Concrete Terrazzo Sealer/Finish - *UL listed for slip resistance*

Cirene is a water-based sealer designed for concrete and terrazzo floors with incredible adhesion that requires no buffing.

Available Packaging

Castleguard, The King of Floor Finishes, offers an exceptional depth of gloss, and may be applied to virtually all hard floor surfaces to provide beauty and protection beyond expectations.

FLOOR CARE

FLOOR FINISHES, SEALERS
AND ENHANCERS

Buckeye floor finishes are easy to apply, and formulated for superior durability and gloss. All Buckeye floor finishes are non-yellowing, non-powdering, U.L. listed for slip resistance, and extend strip cycles.

1st Down®

Stain-Resistant Seal/Specialty Coating - *UL listed for slip resistance*

1st Down is formulated for use on extremely porous floors including resilient hard floors and masonry surfaces. 1st Down resists stains while protecting floors, and increases adhesion.

Proclaim®

Concrete Floor Coating - *UL listed for slip resistance*

Proclaim is a water-based, urethane fortified acrylic concrete floor coating that provides high gloss and fork truck durability.

Floortonic™

Burnishing Liquid - *UL listed for slip resistance*

Floortonic is a one-step cleaner and gloss restorer designed to improve traction on water-based conventional floor finishes and wood floor coatings. It may be mopped on or applied using an automatic scrubber.

R.P.M.™

Realistic Professional Maintenance Finish Enhancer - *UL listed for slip resistance*

R.P.M. is a floor finish enhancer uniquely formulated to bond to floor finish to form a long-lasting, durable gloss. R.P.M. may be mopped on or applied using an automatic scrubber.

Equity™

Spray Restorer For Buffing and Burnishing - *UL listed for slip resistance*

Equity repairs scratches, deep cleans, and improves durability using any speed burnishing machine.

Available Packaging

1st Down, with its low solids, gets down into the tiny pores in non-porous floors (such as semi-gloss or matte finished ceramic tile) and promotes adhesion. Top coat with a finish appropriate for the intended maintenance.

R.P.M. can be used as a mop-on dressing for unfinished rubber floors. Apply at a dilution rate up to 32 oz/gal. for some shine and protection.

FLOOR CARE

FLOOR STRIPPERS

Reduce labor time with concentrated floor strippers that work in cold water and with one application. Buckeye floor strippers are butyl-free, and are patented with Liquescent® technology.

Juggernaut®

The Ultimate Cold Water Floor Stripper

Juggernaut is formulated to remove 15+ coats of heavily burnished floor finishes and sealers for the toughest stripping tasks.

RipSaw™

Floor Stripper

RipSaw liquefies heavily burnished finish and sealer fast with low foam and a mild fragrance. RipSaw's unique ADI® (Automatic Dilution Indicator) feature turns solution cloudy to indicate that it is properly diluted and ready to be used.

Revelation®

Universal Cold Water Floor Stripper

Revelation liquefies finish and sealer on resilient tile and hard surface floors with a 1:10 dilution for normal use.

Base Hit™

Baseboard Stripping Gel

Base Hit is a powerful baseboard and spot floor stripper with a clinging gel that sticks to vertical surfaces and removes heavy buildup. Base Hit easily rinses away and leaves no film behind.

Arriva™

Cold Water Mop-On Stripper

Arriva removes metal crosslink floor finishes with no machine scrubbing or rinsing required. Arriva is ideal for confined areas.

Liquid Shovel®

Mild pH Cold Water Stripper

Liquid Shovel liquefies the toughest crosslink floor finishes on pH sensitive floors like rubber, linoleum, and Marmoleum®. Liquid Shovel is non-corrosive with low VOCs and has no noxious vapors.

Pad Pal™

Floor Pad Rejuvenator

Pad Pal liquefies finish and dirt buildup, restoring and rejuvenating floor pads while reducing pad replacement costs.

S.W.A.T. NA™

Cold Water Non-Ammoniated Stripper

S.W.A.T. NA is an economical, non-ammoniated floor stripper that liquefies metal crosslink floor finishes.

Available Packaging

RipSaw Floor Stripper cuts through finish buildup fast, making the labor intensive task of stripping easier and more manageable.
